Dear Carrie:

Upon hearing that you have started a new company, Blue Pixels Media, LLC, our Agency wanted to express our deep appreciation for your outstanding contributions to the Department of Defense and especially to the Military Surface Deployment and Distribution Command Transportation Engineering Agency (SDDCTEA). The outstanding work that you've accomplished on the *Better Military Traffic Engineering 2005* CD-Rom and the *Traffic Engineering and Highway Safety Bulletins* have set the pace for all work we have done in recent years.

Your creative ability and artistic talent as well as that of your staff at GeoDecisions have made a truly remarkable interactive CD and user-friendly bulletins. Your talents for managing and producing the CD and bulletins set a new high standard for others to pursue and is a source of pride and inspiration for my staff and me.

Your skills in translating technical data and information into understandable communication through a graphical approach gives every consideration to the target audience and serves to stimulate and retain reader interest by instilling a visual image within the users mind. Because this CD and the quarterly bulletins were a forerunner in so many areas, I am sure that your team constantly faced new and unforeseen obstacles. However, as can be testified by the completed CD and the quarterly bulletins, the team never surrendered. Comments from our users attest to the high quality of your products. Both the CD and bulletins have generated a very favorable image of SDDCTEA within the Department of Defense.

Thank you for your dedicated service to this nation. Our best wishes for the success of your company and new venture.

Sincerely,

A handwritten signature in purple ink that reads "Paul W. Allred".

Paul W. Allred
Chief, Highway Engineering
Military Surface Deployment and Distribution Command
Transportation Engineering Agency
